- **2.10 years** of experience as a skilled ReactJS Developer
- Specialization in UI components using React-Bootstrap and SASS, achieving a **20%** improvement in responsiveness.
- Skilled in API integration and deploying authentication solutions with react-oauth, leading to a **30%** decrease in login errors.
- Proven ability to develop robust web applications for financial services, contributing to a **40%** increase in client satisfaction ratings.

Professional Experience

Applied Cloud Computing, Thane • Software Developer
10/2021 - Current
Projects:
Title: Bandhan Mutual Fund | React JS | Node JS
Frontend Development:

- Constructed **20+ UI components** using ReactJS and Tailwind CSS for a mutual fund website.
- Engineered interfaces and integrated **15+ APIs** for Bandhan Mutual Fund.
- Managed form handling with **React Hook Form and Yup** for validation, improving form accuracy by **30%**.

Backend Development:

- Engineered backend services utilizing **Node.js and PostgreSQL** for the mutual fund website.
- Designed and integrated **20+ RESTful APIs** to handle client requests and ensure smooth data operations.
- Applied data validation and schema definitions using **Yup**, enhancing data integrity by **25%**.

Title: Cloud Lifecycle Management | React JS | Node JS
Frontend Development:

- Built a dashboard portal using **React.js, Bootstrap, and Redux** for monitoring AWS cloud resources.
- Ensured continuous monitoring and optimal resource utilization, improving efficiency by **40%**.
- Utilized Redux for state management and Bootstrap for a responsive design, achieving a **25% reduction** in loading times.

Backend Development:

- Crafted backend services using **Node.js, MySQL, and AWS SDK**.
- Facilitated efficient management of deployed cloud resources with AWS SDK, reducing manual interventions by **35%**.

Title: Udaan | React JS

- Employed **React.js, Bootstrap, and Redux** to organize and manage records for students, teachers, staff, exams, holidays, and attendance.

- Implemented secure user authentication and role-based access, enhancing security by **20%**.
- Spearheaded the creation of the attendance management module, reducing manual efforts by **30%**.

Title: HDFCLife Call Vault | React JS

- Utilized **React.js, Bootstrap, and Redux** for development.
- Created a form for entering call details such as caller ID, call duration, date, and keywords.
- Developed functionality to securely save call Record Excel and audio files to **S3**.
- Incorporated a feature allowing users to download audio recordings directly from the system, improving user satisfaction by **15%**.

Skills

Technical Skills Proficient with:

- **Front-End Development:** React JS, JavaScript, HTML, CSS
- **Styling Frameworks:** Tailwind CSS, Bootstrap
- **Forms & Validation:** React-hook-form, Yup
- **State Management:** Redux
- **APIs & Authentication:** Node JS, Axios, JWT, Google Authentication
- **Data Visualization:** Chart JS
- **Version Control:** GIT
- **Cloud Services:** AWS
- **Testing & Debugging:** Postman

Soft Skills:

- Leadership
- Problem Solving
- Debugging
- Decision Making

Education

MCA • Bharati Vidyapeeth, Pune (Pursuing)
BScIT • A.V.G College, Thane (2019)
